Fabulous Feltham

Year 1 Ottawa Class

Autumn Two Term 2026

Key Areas of Learning

As **geographers**, we are looking at where we are in the world. We will begin by locating our school on an aerial map and then create our own maps of the classroom. After this, we will look at the features of the playground, identifying what we can improve. To conclude our project we will create a newly designed playground and pitch this to the head teacher.

As **scientists**, we are studying the weather, including temperature and how it changes throughout the day. We will explore different types of weather and learn how wind is formed and measured. As part of our learning, we will design and make our own windsocks to help us observe the direction and strength of the wind in a fun and practical way.

English

As readers, we will be reading the book 'The Kiss That Missed' by David Melling.

As writers, we will be producing a variety of different pieces of work around our text. We will begin by exploring the language, asking questions, writing simple sentences and creating story maps.

Maths

As mathematicians, we will first be exploring the topic of shape and pattern, where pupils will learn about 2D and 3D shapes, patterns, and movement, such as left, right and backwards. We will then move onto the topics of numbers within 20 and adding and subtracting within 20. Pupils will be representing numbers in different ways, counting on, finding one more and one less, comparing and ordering. Then moving onto addition and subtraction strategy for bigger numbers.

Computing

In Computing, we will be continuing our topic of creative computing where pupils will continue learning key skills of using the computer such as using the mouse accurately, dragging and dropping.

PSHE

Jigsaw Puzzle Piece: Celebrating Differences

We are learning to explore how people can be similar and different, reflecting on our own similarities and differences while learning to include others, use kind words and recognise what makes me special.

PE

In Physical Education, we will begin to look at gymnastics and dance. Through both of these, we will learn the fundamental skills of balance, agility and co-ordination.

Art and DT

As designers, we are going to be designing and making our own pencil pots. We will be exploring stable structures by using our bodies to balance and making towers to decide how our pencil pots will be stable.

Religion and World Views

IN RE, we are learning what God looks like to different religions. We will be exploring different views that religions have and learning about God in those religions.

Music

As musicians, we will be focusing on tempo in Music. We will be exploring using our voices, bodies and instruments to respond to different pieces of music.

Experiences

2.11 Farm visit

Whole School Events and Themes

24/11 and 26/11- Teacher Parent Meetings
27/11- PTA Karaoke Event
07/12- Visiting Theatre: Aladdin
08/12- PTA: YR-Y3 Christmas Cinema
10/12- PTA: Y4-Y6 Christmas Cinema
11/12- PTA- Christmas Fair *School finishes at 3pm*
17/12- Christmas Jumper Day and Christmas Dinner
18/12- Christmas Class Parties * School finishes at 1.30pm *
Autumn School Clubs Start 02/11 - Ends- WB 07/12
