

EYFS Homework Update

Dear Parents and Carers,

Welcome to Edward Pauling Primary School, please find below further information regarding our approach to homework. In a few weeks time your child's teacher will start to share some tasks that can be completed at home- if you require any support then please do speak to your child's class teacher. **At Edward Pauling Primary School your child will be issued with a homework book and each week a homework table will be stuck in. Homework is shared with parents and carers on a Friday and homework books should be returned on Wednesday.** The following pages provide additional information and rationale for the different activities that will make up our homework offer.

We consider that the core purpose of homework is for our children:

- To consolidate and practise core knowledge and skills so they remember and become fluent in reading, speaking, writing and numbers.
- To develop independent study habits, organisation and resilience that prepares them for future learning.

Furthermore, we want to ensure that we provide parents and carers accessible ways to support learning and understanding what their child is working on. We have provided a summary below of what is expected along with our homework rationale.

All homework will be shared on weekly homework grids that will be stuck into your child's homework books. All tasks should be completed in the homework books.

Teachers will acknowledge all homework, but will not provide detailed marking and next steps. It is expected that all children complete given homework as it helps to consolidate learning.

We ask that time can be spent decorating and personalising the front and back cover of the homework book. Please ensure that your child's name is clearly visible. We also ask that you protect the front and back cover by covering with clear plastic.

Tip for Parents: Encourage your child to complete homework in small chunks across the week rather than leaving it until the last minute.

The DfE advised time guidelines for children in primary schools is:

Years 1 and 2: 1 hour per week
Years 3 and 4: 1.5 hours per week
Years 5 and 6: 30 minutes per day

We recommend that parents recognise this and our expectations will never exceed these recommendations. This time allocation should include children's self reading for pleasure. We also believe that it is important that children have time to spend with their family and with other activities particularly during the primary years and want to support our parents to do this.

What effective homework looks like at Edward Pauling Primary

Reading

Your child is expected to read at home **each evening** as this has a large impact upon their reading, writing and confidence in all areas of their learning. Please record any comments you have, or sign to acknowledge that your child has read, in your child's reading records. An adult looks at these each week and keeps a record of how many times they read. **Your child should bring their reading folder to school each day.**

Speed Sound Books

To support your child in practising the Set 1 sounds they have been learning at school, they will bring home a **Speed Sounds Book**. Each page shows the letter on one side and the corresponding mnemonic on the other. The handwriting phrases help children remember how to form each letter correctly when writing.

Sound Blending Books

Our earliest readers will begin by bringing home a **sound blending book** whilst they are learning Read, Write Inc (RWI) Set 1 sounds. Ask your child to read each word in sounds (Fred Talk) and then say the word. Then, they turn over and check if they are right.

A4 Ditty Sheet

Once your child is in a Ditty group, they will bring home an **A4 Ditty sheet** everyday this is the same as a book. Please practise the speed sound, green and red words and read the sentences

Reading Books

Once your child is in the Red RWI Group, they will be given a Read Write Inc Phonics Storybook and a Book Bag book. Your child will have read this story three times with their reading teacher, so should be able to read the story confidently. This is designed to build their fluency and confidence. A brief explanation of how to follow the activities is included in the books.

Your child will also be given a Book Bag Book. This book builds upon the ideas and many of the words in the Storybook he or she has just read. Your child will need more support in reading this book. Again, explanations of how to use the activities are included in the books.

Free Choice Books

Each week your child will visit the school library to choose their own choice of book based on their own interest. The purpose of children choosing their own library books to read at home is to foster a love for reading. Your child may need support with reading this book.

Research shows that children who read for pleasure often perform better across all subjects.

Writing

Vocabulary development

Each week, we will share a song or rhyme for our children in Reception to learn and will share a picture as part of the Big Talk to further support developing your child's oracy skills.

Research Evidence suggests we can support early literacy outcomes by using songs and rhymes that include alliteration and repletion to develop children's vocabulary and knowledge of story structure.

Research shows that learning poetry by heart not only improves ones ability to communicate, but also enhances cognitive function, boosts emotional well-being, and improves literacy.

Spelling

Research evidence suggests that spelling tests not only increases anxiety for many children, but focus on short-term memorisation rather than long term retention. At Edward Pauling we ensure that the teaching of spelling is taught within the context of reading and writing and teachers focus on word patterns, phonics patterns and word construction.

Throughout the week, there is regular practice rather than one-off tests.

Each week, those children who **are part of** the Read Write Inc programme will be given the Red Words that they are taught by their reading lead. Red Words are also known as common exception or tricky words. They occur in stories regularly (said, what, where) but have unusual letter combinations ('ai' in the word 'said' makes the sound 'e'). **This means they can't be sounded out** (Fred-talk) Remind your child not to use Fred Talk to read Red Words but instead to 'stop and think'. Tell your child the word if you need to and work together to learn them by sight. The more your child sees the words the easier it will be for them to recognise and read them by sight.

Each week, those children who **are part of** the Read Write Inc programme, teachers will share a QR code with parents and carers who can watch an assigned virtual classroom film for sounds and word practice that your child has been learning throughout the week. We encourage families to watch these films with their children for five to 10 minutes each day to help consolidate your child's phonics knowledge.

Maths

Consolidation Task

Each week, the children will be set a practical activity to support the maths learning taking place in school. Your teacher will share some suggested ideas on the weekly homework grid.

Research supports that the primary purpose of homework is to reinforce learning that has already been taught in class, not to introduce new concepts. Homework tasks should closely mirror the examples and concepts taught in school to ensure pupils have a clear and accurate foundation to build upon.

You can show you value your child's homework by:

- providing a suitable place in which your child can do their homework, preferably with an adult to discuss, encourage and support;
- making it clear to your child that you value homework and support the school in explaining how it can help learning;
- ensuring work is complete and submitted on time;
- checking your child spends a suitable amount of time on homework.

Additionally, you can support your child's development by:

- visits to libraries, museums etc;
- cooking with them;
- taking your child swimming;
- playing games, e.g. board games, cards, ball games;
- watching informative TV programmes together;
- providing opportunities for craft activities, e.g. cutting, sticking, sewing, painting etc;
- gardening and growing plants;
- using the internet to research something with your child (following guidelines for safe internet use);
- attending any school workshops that may be on offer

If you require any further information, or support with accessing homework then please do speak to your child's class teacher.

Warmest regards,

Mr Malin
Headteacher
